

Product Idea: EduForge

Problem

Small coaching institutes and tuition centers still manage their operations using:

- Excel sheets
- WhatsApp groups
- Manual attendance registers
- Manual fee tracking
- Word documents for question papers

This leads to:

- Lost student information
 - Missed fee collections
 - Time spent preparing question papers
 - Lack of centralized records
 - Difficulty managing multiple batches
-

Proposed Solution

EduForge is a web-based Coaching Institute Management Platform designed for small and medium coaching centers.

The platform helps institutes manage:

- Students
- Attendance
- Fees
- Exams
- Question Banks
- Question Paper Generation

from a single dashboard.

Target Customers

Primary Customers:

- Tuition Teachers
- Coaching Centers

- Test Preparation Institutes
 - Small Educational Organizations
-

Unique Value Proposition

Most coaching institutes need software every day for:

1. Student Management
2. Attendance Tracking
3. Fee Collection

Question Paper Generation is provided as a value-added feature.

This ensures the product becomes part of daily operations instead of being used only during examination periods.
